WORKSHOP

SIREN
Società Italiana Reti Neuroniche
Italian Society of Neural Networks

AI APPLICATIONS FOR "SOCIAL GOODS"

Recent advancements in Artificial Intelligence exhibit considerable potential for addressing complex challenges across diverse domains, yet it is imperative to channel this potential toward resolving critical social issues. The proposed workshop, promoted by the *Italian Society for Neural Networks* (**SIREN**), aspires to bridge cutting-edge AI research with practical applications for meaningful social impact. We invite researchers, practitioners, and innovators to join this dynamic and collaborative forum dedicated to developing AI solutions that drive societal progress. The workshop will showcase inspiring keynote presentations by distinguished speakers and feature groundbreaking research contributions. Together, let's shape the future of AI for the betterment of all!

We welcome high-quality contributions that explore, but are not limited to, the following areas:

- **Real-world Applications**: AI solutions in healthcare, education, environmental sustainability, disaster management, public safety, and other domains with significant societal impact.
- **Fairness, Accountability, and Transparency**: Frameworks, methodologies, and best practices for building ethical and trustworthy AI systems.
- **Interdisciplinary Approaches**: Collaborative efforts integrating AI with disciplines like psychology, sociology, economics, public policy, and ethics to tackle pressing societal challenges.
- **Inclusivity and Accessibility**: Cutting-edge innovations designed to enhance inclusivity, accessibility, and user empowerment in AI technologies.
- **Emerging Trends and Challenges**: Explorations of new directions, challenges, and opportunities in aligning AI research with societal needs and ethical principles.

Prospective authors are invited to submit complete papers of no more than eight (8) pages in the IEEE two-column conference proceedings format. The accepted papers will be considered for publication in the **IJCNN 2025** proceedings on the *IEEE Xplore Digital Library*.
